Zin Min Aung

Web Developer

Germany | kozin017@gmail.com | +49 17625621168 | Portfolio

PROFESSIONAL SUMMARY

Web developer and designer with 13+ years of experience building and maintaining CMS-based web applications, with hands-on PHP, MySQL, and CMS integration experience (WordPress, Joomla) across client and enterprise projects. Comfortable owning projects independently, from stakeholder requirements through implementation and ongoing maintenance, with practical experience integrating third-party systems and APIs. New to the Shopware ecosystem specifically, but with a strong PHP/MySQL foundation and a consistent track record of picking up new CMS and backend platforms quickly across a 13-year career spanning WordPress, Joomla, and custom WCMS development.

WORK EXPERIENCE

Web Developer | M Learning Hub

Feb 2017 – Jul 2025 | Myanmar (Hybrid)

- Built and maintained front-end and backend interfaces using PHP, HTML, CSS, and JavaScript, with hands-on CMS integration experience (WordPress, Joomla), managing content and deployment through UAT environments before production release.
- Designed and developed responsive websites and landing pages from concept to implementation, focusing on usability, visual consistency and responsive behaviour across devices.
- Developed reusable theme concepts and visual frameworks that established consistent design standards for future digital projects.
- Used Google Analytics and Google Tag Manager to monitor website performance and translate insights into design and content improvements.
- Worked independently and directly with stakeholders to gather requirements, scope projects, and deliver reliably within agreed deadlines.

Web Designer & Developer | Housing & Development Board (HDB)

Mar 2013 – Nov 2016 | Singapore

- Designed and developed responsive websites based on client requirements, from initial concept and visual design through front-end implementation.
- Created and adapted visual layouts while maintaining consistency with established design and branding requirements.
- Developed web interfaces using HTML, CSS, JavaScript, PHP and MySQL and integrated CMS functionality where required.
- Worked directly with stakeholders to understand requirements, propose practical solutions and coordinate project delivery.
- Supported website content updates, technical maintenance and ongoing improvements across client projects.
- Applied usability, responsive design and performance principles to deliver practical digital experiences across desktop and mobile.
- Managed multiple projects independently, maintaining clear communication and consistently delivering work within agreed scope and deadlines.

Web Designer & Developer | Bluebell People

Jan 2009 – Feb 2013 | Singapore

- Designed and developed websites and digital interfaces for clients, translating briefs and business requirements into practical visual solutions.
- Created responsive page layouts using HTML and CSS with supporting JavaScript and PHP development.
- Worked with clients to gather requirements, develop concepts and refine designs through feedback and review.
- Supported CMS implementation and content management using WordPress and other web technologies.
- Prepared and updated digital content while maintaining visual consistency and usability.
- Delivered client projects on time and within scope through structured planning, clear communication and attention to detail.

Tech Skills

Backend & Database

- PHP (OOP), MySQL, REST APIs, CMS Integration

Professional Strengths

- Independent Working · Structured Problem Solving · Stakeholder Communication · Cross-Functional Collaboration · Attention to Detail · Deadline Management

CMS Platforms

- WordPress, Joomla, custom WCMS (Shopware/WooCommerce: new platform, fast learner)

Frontend

- HTML5, CSS3, JavaScript, responsive web design

Delivery & Process

- Git, independent project delivery, stakeholder requirement gathering, agile-style iterative delivery

Quality & Performance

- Website performance monitoring (Google Analytics, Tag Manager), UX/usability principles

AI & Digital Tools

- Generative AI Tools · AI-Assisted Content Creation · AI-Assisted Design Workflows

EDUCATION

Master of Data Sciences, AI & Digital Business

GISMA University of Applied Sciences, Potsdam, Germany | Jan *2026 – Present*

Focus: Data Science, Machine Learning, AI-driven product development, digital marketing and business models

Bachelor of Engineering (Information Technology)

Technological University of Mawlamyine, Myanmar | 2002 – *2006* | GPA: 3.79

Focus: IT Support, Web Development, Software and Hardware Development, System Analysis

CERTIFICATIONS

2025 – Design Fundamentals with AI, Adobe

2025 – Content Marketing Using Generative AI

2024 – Google UX Design Certificate, Coursera / Google

2008 – Creative Web Design Certificate

LANGUAGES

English: (C1) Professional Working Proficiency

German: (B1) Intermediate, actively improving
